- Excel, PowerPoint, Word
- Tableaue

## Profile

Hey I am Shubhang, currently an undergraduate at CMRIT, Hyderabad. I am a Tech enthusiast. Technology excites me in countless ways, as it represents an ever-evolving realm of innovation and endless possibilities. I like learning things and exploring different technologies. As of now I am building my skillset and looking forward to contribute in building technologies that helps the mankind. Apart from tech, I love playing games.

## Interests

- Video/Photo Editing
- Travelling
- Content Creation

## Projects

○ 2024 - February  
App Development - Android /Flutter/Flask

### Sudoku Solver App

Android Studio | Java | XML

Developed a Sudoku Solver app using Android Studio during my second year of B.Tech. The app featured a backtracking algorithm to solve puzzles in real-time, with a user-friendly interface designed in XML. I implemented puzzle validation, error handling, and optimized the app for performance on Android devices.

○ 2024 - June  
Real Time/Societal Research Project

### Self Diagnosis HealthCare Chatbot

NodeJS | HTML | CSS

Developed a Health Care Chatbot using NodeJS, HTML, and CSS to assist users with medical inquiries through automated responses. The chatbot processes user inputs in real-time, providing healthcare advice based on predefined data. This project enhanced my skills in web development, backend integration, and responsive UI design.

## Declaration

I hereby declare that the above written particulars are true to my best my knowledge and brief.

Place: Hyderabad
